A GROWING NEWSPAPER IN A GROWING COMMUNITY

Volume 53, Number 28 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — Thursday, April 1, 1948

Our Town

By Peggy Blanchard

All but lost in the hub bub of a presidential election year, school board trusteeships are going begging for candidates.

You won't need me to tell you how important a post it is, to watch over the minds and heart of America's growing, impressionable youth.

Yet you seldom hear about the trustees—201 of them in the whole county to oversee the educational welfare of some 40,871 pupils, teachers and non-teaching employees.

It may be because school board members are modest men. They don't seek the limelight, nor even, to judge by the dearth of candidates, do they seek the job.

Yet, they are the most respected, "sondest" citizens a community can boast.

It's a tedious honor and a heavy responsibility. This year, Dr. O. S. Hubbard informs us, Santa Clara County School trustees will handle some ten and a half million dollars in school expenditures in 52 districts.

That's big business, and everybody's business. Therefore, American-like, we all leave it to someone else.

Locally, we are lucky to have J. V. Gomes, G. K. Schrader, Frank Steindorf, Walter Williams, Ross Trowbridge, Roy Smith and Kenneth Jessen to represent us in this huge task.

I'd be interested to see how many Campbell voters went to the polls at last election to give these men the indorsement of their vote.

★

Mrs. Merle Gardner came in Wednesday to tell of plans for Public Health Week here, April 11-17, and of the augmented well-baby clinic.

Pre-school children will be examined the first Monday and third Wednesday of each month in IOOF hall—both sessions from 9 to 12 in the mornings.

Mrs. John Duncan is in charge of the Wednesday clinic and Mrs. Gardner of the Monday ones. April dates are the fifth and twenty-first.

★

Service department of the PG&E says they had only two inquiries about why Campbell had no street lights for the past five nights. When it got so dark he couldn't see across his own front yard, one householder phoned to find out why. Service crews came out to Campbell Wednesday night to try and locate the trouble.

★

Add signs of spring — folks hurrying to buy seeds and seedlings, the bright azaleas, primrose, pansie plants on display at garden stores, hop-scotch patterns on the sidewalk — and, oh — the whole valley white like a sea with blossoms!

Five Democrats File Candidacy

Five men filed their candidacy papers last Saturday for the Democratic County Central committee. They are: Patrick H. Peabody, valley publisher; Thomas Barclay, Palo Alto, Stanford professor; Charles McDonald, Palo Alto attorney and former Congressional candidate; Roland Davis, Palo Alto attorney; and George R. Kane, Sunnyvale editorial and advertising director, Peabody Publications.

Professor Barclay, Peabody and Kane are incumbents.

Youth Guidance Is PTA Topic

Officers of Campbell Grammar School PTA will be installed at a meeting scheduled for 2:30 p.m. April 6 in the school auditorium. Juvenile Guidance is the theme of the session.

Mrs. Clarence E. Fagalde, president of El Paradiso Council, is installing officer. Mothers of second graders will serve refreshments.

Board members will meet in the teachers' room at 2 p.m., prior to the general meeting.

Badge Show

Over 2000 Cub Scouts, Boy Scouts and Senior Scouts of the Santa Clara County Council, Boy Scouts of America, will hold a two-day Merit Badge Show at the San Jose Civic Auditorium on April 2 and 3.

Water level's at 6.54 and gaining on last year's total of 9.53—maybe those thunderheads will bring more rain.

Campbell Future Foreseen By American Trust In Opening New Office April 12

The "bank of tomorrow" opens its doors soon in Campbell. With a complement of nine employees and the most modern facilities to work with, Campbell may well point with pride to the newest business firm to see the future of the community.

JOAQUIN J. PAYNE

Nearly 400 safe deposit boxes will be available for customers, three tellers will serve the public in all phases of the banking business, a note department and installment loan division is also to be maintained.

It appears that the American Trust Company, in building such a modern structure, is confident in the future growth and stability of Campbell. No expense has been spared in making this bank one of the most modern, up to the minute bank buildings anywhere in California.

Employes are: Walter G. Scoville, of Palo Alto; William J. Halls, Berkeley; Thomas E. Boyle, San Jose; Evelyn M. Watkins, Virginia Brand, a Campbell girl; Nadine Smith, also a Campbell resident, and Alleen F. Cowdry, well known in Campbell.

James K. Lochead, president of the American Trust Company has chosen Joaquin J. Payne as manager and Arthur R. Mayo as assistant manager of the Campbell office. Both men are well known here.

Payne started his banking career with American Trust Company at Gilroy in 1929. After seven years of service at that office he was appointed assistant manager at the bank's Santa Clara office. He continued in this

(Continued on Page 8)

Bank To Provide Free Parking

American Trust company Wednesday concluded a lease with the Southern Pacific company for a parking area 200x50 feet at the corner of Campbell and Railway avenues.

One-half block east of the location of the new bank which will open within a few days, the area will be graded and surfaced.

The space will be maintained as a free parking area for the convenience of bank customers and shoppers, who now have difficulty finding parking space during peak hours.

OVER QUOTA

Red Cross Ends Over Its Goal

Already over their quota of $2500 and hoping for a total of some $3000, American Red Cross campaign workers are bringing their 1948 drive to a close this week.

Fred Jones Sr., campaign chairman, said Tuesday that $2750 has been turned in to date. Contributions are still acceptable and may be taken or sent to the Campbell Water Company office or to the office of Guy E. Farley, Campbell avenue.

Mr. Jones issued a statement thanking the men and women who served as volunteer solicitors in the area.

They are: A. E. Brydon, L. J. Carboni, Mrs. M. S. Robertson, Mrs. W. M. Allinger, Mary Fablinger, Mrs. H. Held, Lt. Col. Richard E. Humes, Kathryn Jones, E. F. Ballott, Mrs. Ralph Nelson.

(Continued on Page 8)

Local Contractor Lowest Bidder On Blood Center

N. A. Lamb, Campbell contractor, will be awarded contract for construction of Santa Clara Valley's new blood center on his bid of $22,980, it was indicated Wednesday.

Lamb's bid was lowest of seven bids opened by the Red Cross board of directors at a meeting at the Red Cross Chapter House, San Jose.

Work on the structure will be started in 10 days, according to Charles H. Prior, executive director of the Santa Clara Valley Blood Bank. Completion is set for about July 1.

Lamb recently completed construction of Re's Market here, which is opening this week on E. Campbell avenue near the San Jose-Los Gatos Highway.

Pioneer Woman Claimed by Death

Anna Baumgartner, one of Campbell's early pioneers, died Tuesday morning in San Jose Community Service Hospital at the age of 92 years, nine months.

Mrs. Baumgartner came to Campbell in 1888 and lived here continuously for 47 years. For the past two years she has lived in Cupertino. She was a native of Davenport, Iowa.

For many years she engaged in the fruit industry here as an orchardist.

Surviving her are four children, Fred and Martin Baumgartner of San Jose, Leonhard Baumgartner of Cupertino, and Mrs. Bernice Austin of Reno, Nev.; seven grandchildren, nine great grandchildren and two great-great grandchildren.

Funeral services were to be held at 2 p.m. today from Rutherford Funeral Home, Campbell.

Senior Play on High School Stage Tonight

"June Mad," a three-act comedy, will be presented at 8 p.m. tonight and tomorrow, April 1 and 2, in Campbell High School auditorium by the class of 1948.

Directed by Dean Chamberlain, the play has a cast of 13, with Connie Tinsley in the leading role. She portrays Penny Wood, an adolescent who has romantic complications in her life.

Other students in the play are: Jim D'Avis, Margaret Hengstebeck, Miles Dennis, Vic Corsiglia, Eileen Goodson, Jeannine Ledum, Harold Ely, Harold Orcutt, Ray Thompson, Regina Smith, Warren Vandever and Marian Page.

Charles Whitworth is stage manager; Jeanne Currie and Marian Weltz are prompters, Maryevelyn Peterson and Margaret Kollmer are in charge of properties and Louise Korotaj of ticket sales.

Art and Journalism classes of the school have charge of posters and publicity for the production. Luella Devich and Sherwood Rodgers are the make-up committee and Enea Gualtiere is electrician.

Musical selections will be played between acts by the school orchestra, directed by Frank Triena.

Dates of the presentation were postponed from March 18 and 19.

Signs of The Times

By Harry Blanchard

INCORPORATE ?

The time approaches for Campbell to seriously take stock of its future. Growth in population has been nothing short of phenomenal. Four new and large business firms are this week preparing to open their doors. A new manufacturing firm has started construction on a factory building. New subdivisions are springing up all around the area. The face of the community changes daily . . . that is in the localities where there is room for expansion, and where the county planning commission has approved. People who once lived here, and have come back for visits are justly amazed at the growth and progress.

x x x

But what of the future? Fifteen thousand inhabitants now live in close proximity to the center of the town. Most of these people are in the upper bracket of citizens who want the good things of life. They want a good, clean, interesting town. They want elbow room. They want planning. They want the things, within reason that a progressive community should afford them.

x x x

There is an awakening to the fact, known by a few, that Campbell is only a step-child of the county . . . the town is a waif, a foundling . . . quite forgotten by the County Fathers. Since a few progressive and hardy souls started incorporation talk, Campbell has been shunned by the powers that be in county government. Very little, if any county money has been used to improve the town since the movement to incorporate got under way a year and a half ago. It is difficult to understand just why this condition should exist . . . but there it is! Look about your own section, your own street . . . have *any* improvements been made? Has any work been done, except privately, to make of Campbell a more livable, a more attractive place in which to live and work?

x x x

This week we received a phone call from a prominent business man telling us that some $61,000 had been earmarked for street improvements and the cutting of new streets. . . . but that not one dollar of this money had been used . . . nor was it likely that it would be used! Why? Because the "upstarts" here wanted to incorporate the town. Sounds fantastic, but that's it.

x x x

Why incorporate? Surely not because, as one man put it, "The Chamber of Commerce needs a project." Surely not because any one group wishes political prestige or power. Any thinking person should know that there is a great deal of work and very little glory in being a part of city government. There are endless requests for this and that and a council is more often required to say "no" than "yes."

x x x

The basic and underlying reason for incorporation is quite sound. The motives of the proponents are honest and sincere. This community is now paying heavily into county government . . . BUT NOT SHARING ANY OF THE BENEFITS! Where is the justice in that? Can you step to your phone and call a policeman if you urgently need one? No, of course you can't. The town has out-grown its volunteer fire department as well. With all due credit to the boys who respond to fire alarms, it's still an antiquated system to expect men who work all day to pop out of bed and dash down to the fire station half clothed and "do or die" for glory . . . and nothing else.

x x x

Not alone do we need a police force to curb the lawless element, we urgently need some sort of traffic control and regulation. Try to drive down Campbell avenue between Central and Harrison any week-day morning. Trucks are double-parked the length of the block. The Peerless stages stop in the middle of the street anywhere or any time they choose. Is there anyone to do anything about it? No.

x x x

But aside from the need for police and fire protection there is a much more serious need for the town to take stock of itself. As an incorporated city, Campbell has a definite future. As an unincorporated appendage of the county without boundaries, authority or planning it becomes a nonentity. No one knows who to look to for services, for protection or for the solution to the ordinary problems that constantly confront the citizens of any community of this size.

One has only to look at the hundreds of beautiful, prosperous California towns stretching from the Mexican border to the Oregon line, to see what can be done . . . is done, by proper planning and judicious expenditure of the public money. What is tax money for if not to improve the general living condition of a community?

Too often have we heard the tale of "to incorporate would mean higher taxes." That statement warrants very little consideration. The council of this town is the governing body in saying what shall or shall not be spent. The men proposed all own property here. Does it seem reasonable that they are going to raise *their own* tax rate out of reason? Further, they are bound by law and the will of the people in the matter of taxation. They're not going to injure themselves, their friends or their community by letting expenditures get out of hand.

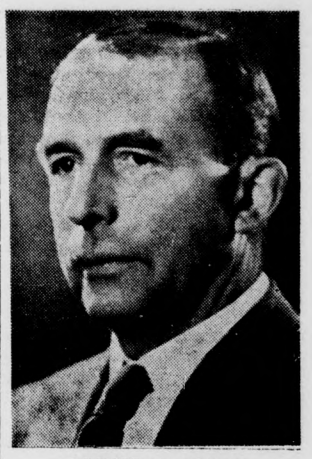
x x x

Let's get this incorporation thing settled once and for all this year. Election day is May 25. Three polling places will be provided. Get out and vote for the future of YOUR town. Remove the stigma of nonentity from Campbell. Let's put the town on the map . . . and on the list of its fair sister cities in this progressive state.

Oliver J. Todd Becomes Candidate For 8th Congressional District Vote

Oliver J. Todd, the official Democratic candidate for Congress in the Eighth District, took out papers for his candidacy this week.

Mr. Todd has been a resident of the Bay Area for 40 years and for the last 10 years has had his residence in Palo Alto. A graduate of the University of Michigan in civil engineering, Mr. Todd came to California where he spent six years as an assistant engineer working on the Hetch Hetchy water supply for the city of San Francisco. Later he was an engineer for the municipal system of the same city for two years. From 1940 to 1942 he headed up investigations of the Bureau of Reclamation as a water conservation expert in the New Mexico area.



OLIVER J. TODD

During the first World War, Todd served as a captain of engineers. He spent 18 months in France and was decorated by General Pershing for his meritorious service. Early in World War II he was regional and area engineer for the Army in various defense projects.

Engineers Yellow River Plan

In 1945 Todd was made head of the United Nations project which changed the course of the Yellow River in China back to its original river bed. This enormous project took nearly two years to complete and while serving as top ranking engineer for the project Todd had seven different nationalities working under him. At one time there were 350,000 Chinese laborers working on the task. Mr. Todd was able to obtain a high degree of cooperation between the

(Continued on Page 8)

RELUCTANT

Only Five File As Trustees

Looks as though Santa Clara County Schools will have to 'draft' 50 candidates for the district school boards this spring.

Only four trustees of schools in Campbell have filed declarations of candidacy as incumbents in the spring school elections, O. S. Hubbard, County Superintendent of Schools announces. In addition, one new candidate—George M. McGrath—has declared his intention to stand for election in the Union School District.

Although no declarations have been made by three other trustees in the area whose terms expire June 30, this places Campbell well above the average of interest in the election.

Only 17 candidates had filed for 67 vacancies throughout the entire county up to Tuesday. April 21 is deadline for filing, Dr. Hubbard points out. "If history repeats itself," he said, "in many districts no candidate will announce himself, and it will be necessary for the County Superintendent to fill the vacancies re-

(Continued on Page 8)

Dr. Dahleen, Rotary Guest, In Inspiring Talk

Before the largest group yet assembled by the newly formed Campbell club of Rotary International, Dr. Henry E. Dahleen, superintendent of the Santa Clara County Hospital presented a message of deep and inspiring intensity.

Eighteen visiting Rotarians and guests brought the luncheon meeting assembly to a total of 37 men. Dr. Dahleen's audience sat in rapt silence as he recounted the past 52-year record of achievement in medicine and surgery. In his 30-minute address he told of the advances made in the curing of many formerly considered fatal diseases such as tuberculosis and pulmonary diseases. He further stressed the recognition doctors of today give to the mental state of the patient. Considerable attention is given to keeping the patient's mind free from worry, stated Dr. Dahleen.

Campbell Rotary meets for their regular meeting on Mondays in the I.O.O.F. building.

Joseph Knowles, program chairman, introduced the speaker.

Mallory To Head KSJO Staff

Charles F. Mallory, San Jose advertising agency executive, has been appointed general manager of Radio Station KSJO, by Patrick H. Peabody, owner of the Valley Broadcasting Co., according to a recent announcement.

The Campbells Are Coming

The Campbell Company is coming—not to Campbell—but just about as near as possible without being actually within the area.

Campbell Soup Company has announced purchase of the Santa Clara plant of Standard Brands, Inc. The purchase is effective April 5.

The transaction announced by Standard Brands and Campbell Soup Company, says that the Campbell interests have purchased six plants operated by the Louden Manufacturing Division of Standard Brands. Included is the Santa Clara plant.

Named On County Freeholder Slate

Fifteen Santa Clara County residents—13 men and two women—were unanimously named Tuesday night as freeholder candidates by the Citizens' Charter Movement of Santa Clara County.

Chairman Frederic T. Shipp, of the CCM nominating committee, presented names of the 15 candidates at a dinner meeting in Hotel De Anza. He explained that the committee studied 150 names and finally reduced the number of 45 persons and from these selected the final 15.

They are:

Cecil L. Carlyle, Gilroy, dairyman; Mrs. Christopher A. Connor, Palo Alto housewife; Raymond J. Fisher, Los Gatos educator; Paul T. Gallagher, San Jose attorney; Charles S. Gubser, Gilroy farmer; Dr. Bertha S. Mason, San Jose physician; Harry G. Mitchell, East Foothills orchardist; Peter J. Pasetta, Santa Clara contractor, and A. J. rice, Los Altos realtor.

Also, Aaron Richards, San Jose business executive; Carl L. Ryser, Almaden fruit dehydrator and warehouseman; E. B. Scott, County AFL representative; Allan M. Standish, Milpitas rancher; W. L. Whidden, retired Morgan Hill public utilities official, and Fred Wickett, Palo Alto, retired insurance executive.

Mr. Gallagher and Mr. Ryser are

Surprise Party Fetes the Ira H. Grims On Their Wedding Anniversary

Members of St. Lucy's Woman's club and their families gathered in the parish hall Tuesday evening, March 30, to honor Mr. and Mrs. Ira Grim on the Grims' thirty-fifth wedding anniversary.

The party was a surprise to the guests of honor until they opened the door and heard Mrs. A. Metcalf playing "Here Comes the Bride."

Mrs. Grim was handed a dainty French bridal bouquet and Mr. Grim escorted his bride up the hall to the place of honor.

Mary Alice Grim sang "Always" for her mother and father. She was accompanied by Patty Sanders. Mrs. Metcalf sang "The Anniversary Song." Patty played the "Bells of St. Mary's" and a number of requests on her marimba.

The group sang favorite songs of the Grims and the men formed a chorus led by Mr. Carboni and Mr. Walsh to sing selections of their own.

Mrs. Monica Parr, president, presented a gift from the club and everyone there joined in thanking Mrs. Grim for her long devotion to the church and club.

Mr. and Mrs. Grim cut the traditional first piece of a huge cake inscribed with "Happy Anniversary, Mary and Ira" just before refreshments were served. As a momento of the pleasant occasion, everyone present signed an anniversary card for them.

J. M. Dahls Have Easter Guests

Happy Easter had a special meaning for Joseph M. Dahl this year.

His sister, Mrs. C. E. Fronsdahl of Nampa, Idaho, whom he had not seen for 29 years, Mr. Fronsdahl and their son Wesley arrived Sunday morning just in time to attend church services with the Dahl family and to spend the day here.

The visitors went to Los Angeles Monday and were to return for a longer stay with Mr. and Mrs. Dahl this week end.

Country Club Pilgrimage Set For Tuesday

Members of Country Women's Club and their guests will gather at the clubhouse at 11 a.m. Tuesday, April 6, to form a caravan for the annual pilgrimage.

The date is a change from regular meeting days, usually held Monday afternoons.

Mrs. W. R. Morgan, chairman for the meeting, will lead the procession of cars to International Kitchens at Niles and, afterward to California Nursery's famous bulb gardens.

The caravan will follow a route through Centerville to Fremont on the way to Niles. Transportation will be provided.

At the last meeting of the club, a men's Night was held. St. Patrick's decorations were used and Ed Dolan, of a San Jose radio station, was master of ceremonies. He received a great ovation from those present in appreciation of his part in the evening's entertainment.

• • •

ARRANGE CARD PARTY

Past Pocahontas club committee met at the home of Edith Anderson Tuesday evening for final arrangement for the card party held Wednesday evening in the Women's Club. The next card party will be held April 27.

CIRCUS PARTY IS FUN FOR GROWN-UPS

Pretty Barbara McCarthy of San Francisco enjoys being a career girl by day and a hostess in her own home. She likes to give informal parties that are simple and unusual, and here she demonstrates her flair for entertaining with an idea for a novel circus party for grown-ups. A circus naturally suggests clowns, popcorn and lemonade, so Barbara has planned her party around gay circus clowns for decoration, and a heaping bowl of fresh popcorn served with tall glasses of pink lemonade for refreshment.

SEQUOIA SEWING CLUB

Sequoia circle met in the home of Vivian Johnson March 25. Many busy fingers worked on prizes for Netops' coming card party.

The next meeting will be held tonight, April 1, at the home of Ruth Livingston, 346 Harrison avenue, Campbell.

Browns Leave Today for Trip To Cuba and Mexico City

Mr. and Mrs. R. Lewis Brown are leaving this evening (Thursday) by train for a business and vacation trip to Texas, Florida and Cuba.

They intend to circle home by way of Mexico City in about six weeks.

Mrs. Brown's sister, Mrs. Hellen Bartholomew of Berkeley, will be at their home in Campbell while they are away.

Easter Sunday Mr. and Mrs. Brown entertained at a festive dinner for out of town guests. Among the group were their daughter, Mrs. Rose Riddle, and her daughter and son, Jeannine and Jay who were here from Eugene, Ore.; Mr. and Mrs. R. P. Booth of Cedar Rapids, Iowa; Mr. and Mrs. L. H. Bartholomew and their baby son Dickey,. and Mrs. Virginia Watson, of Berkeley, and Mr. and Mrs. R. W. Brown, Judy and Herbert.

* * *

Mrs. Frances Hill of Los Angeles spent Easter with Mrs. Luella Ryan of Campbell.

Netops Council Meets for Dinner

Campbell Degree of Pocahontas convened Friday evening, March 26, in IOOF hall with Veda Folden at her station.

Preceding the meeting, a dinner was served to the winning team under the captaincy of Sharon Parker, by the loosing team with Ruth Livingston as captain. Games were played before the meeting, a lot of laughs and an all round good time was had by all.

An early meeting will be held Friday, April 9, and the council body will trail to Minequa Council in San Jose to pay them a visit.

Also, an early meeting will be held the following meeting night, April 23, the date set for the council's card party.

Legion Auxiliary Entertains at Visit Of District President to Campbell

With the official visit of Mrs. Vivian Wright, 13th District President, Campbell auxiliary to American Legion Post 596 held one of the most enjoyable meetings of the current term March 24.

Beautiful spring flowers, in pastel shades, were used as decor for the Campbell Country Woman's club room, and Easter decorations were used on the officers' table, with a lovely centerpiece of spring flowers. Mrs. Wright was conducted to the speaker's stand and introduced to the many members and visitors present, by the unit president, Mrs. Arrah Peck. Mrs. Wright, in a most pleasing manner, reviewed the work already done this term, and spoke of the work planned for the future. She discussed the District meeting to be held soon, and told of plans for a reception and dinner for the national President, in San Francisco, April 5.

Units represented were: Willow Glen, Hollister, Santa Clara, Mt. View and San Jose 89. Thirteenth District officers, seated at the honor table were: Vivian Wright, 13th District President; Jessie McKenny, Past President; Bea Christiansen, Poppy Chairman; Lura Sheets, Radio Chairman and Miriam Smith, Junior Unit Chairman.

Only a short business session was held. Under the direction of Mrs. Mary Hummel, a short program was presented, after which a delicious supper was served. Committees, under the leadership of Mrs. Louise Fairchild, were responsible for this delightful evening.

CELEBRATES BIRTHDAY

Mrs. Frances Gilligan was hostess at a birthday luncheon and tea on the afternoon of March 24 in honor of her father, A. L. Beck, of Campbell, on the occasion of his 83rd birthday.

Eight long-time friends of Mr. and Mrs. Beck were guests at the party.

Chapter Plans Men's Night

Men's Night for Campbell chapter, O.E.S., will be held at 8 Friday evening, April 2.

An evening of surprises is promised by George E. Tutt, general chairman. Wilbur Mitchell and Don Hartman are in charge of decorations. Refreshments will be served at the close of the meeting by Walt Williams, J. Arnold and H. Brasch.

Ella Elkey, worthy matron, and John Duncan, worthy patron, will preside.

• • •

To Benefit O'Connors

Ladies of the Catholic Circle of St. Mary's church, Los Gatos, will hold a card party in the parish hall, Tait and Bean avenues, at 8:15 tonight for the benefit of the O'Connor Hospital building fund campaign.

Prizes will be awarded and refreshments will be served. The public is invited.

COLOR SYMPHONIES

A man's thoughts turn to love in the Spring, so the old saying goes. A woman's mind, however, is directed to clothes, for before the first crocus peeps out of the ground or the first robin warbles, women start planning warm weather wardrobes.

There's one thing every woman has in common, no matter how much money she spends on her clothes, she never seems to have enough accessories. And for those of us who operate on a limited budget, ingenuity is a must. So let's begin with the scarf department.

Consider those once white scarfs, now tattle-tale gray from wear. Give them another chance with color. Bright orange, for example, is popular this Spring and will add a cheerful note to your basic suit or dress. If your scarf is triangular, tie it in back cowboy style and wear pearls over it. If it's a long scarf, wear it around the waist and tie in a loose knot.

Don't forget a pretty scarf for evening. Why not copy one made by a famous designer and dye your old one a pretty soft pink? Then embroider a colorful flower design around the edge in sparkling pastel sequins.

And who would ever guess you didn't own the original?

There's one important point to remember when converting old color into new. Use an all-purpose dye that is made for every type of material. It's guaranteed to work on all fabrics whether natural ones, such as cotton and linen, or synthetic, such as rayon.

And remember that with an all-purpose dye that works on all fabrics, last year's Spring prints can change their color, gloves can, too; in fact, there's no limit to the changes the dye pot can make for you.

Sunday Players Begin Bible Series

Rapidly gaining recognition as one of the outstanding radio programs available to listeners in this area, the famed Sunday Players of Hollywood, a regular Sunday feature of both Radio Stations KSJO and KSJO-FM, begin this Sunday dramatically reliving the familiar pages of the Old Testament.

Starting with the story of "The Fall of Man,' from the early chapters of Genesis, the Players will give their interpretations', all entirely non-sectarian, of the authorized versions of the Scriptures. Radio time is 1:30 to 2:00 p.m. every Sunday.

Leading feminine talent is provided by Vicki Vola, who also stars as the secretary in "Mr. District Attorney," and by Sadie Crockett, product of the Chapelle Echool of Art. Leading male roles are played by Bartlett Robinson and Henley Stafford, the latter considered the ace of Hollywood radio heavies.

Music is provided by Sir Thomas Beecham and his British Broadcasting Commission symphonic orchestra.

Other plays which will follow include The Great Flood, The Tower of Babel, Coat of Many Colors, Benjamin's Cup, Crossing the Red Sea, The Law of God, Balaam and Balak, The Fall of Jericho, The Song of Deborah, Ruth and Naomi, Samson and Delilah and David and Goliath.

April showers might bring May flowers for some, but this year 2,700 persons alive on April 1 won't be around to enjoy the flowers on May 1, unless traffic accidents are reduced, warns the National Conservation Bureau. Around 2,700 persons a month are needlessly killed by careless driving and pedestrian habits, the Bureau points out in a plea for safer traffic habits.

Deaths at Work Increase in '47

Over 17,000 American workers were killed in accidents while on the job during 1947, according to the National Conservation Bureau division of the Association of Casualty and Surety Companies, in a recent warning to workers of all classes against careless habits in the mill and office. Another 2,058,000 workers were permanently or temporarily disabled, the nation-wide safety organization said.

Despite effective accident prevention programs in many industries, the industrial death toll was approximately 500 more than in 1946, the Association said, and warned that the pain and mutilation and the loss in wages caused by accidents are still so widespread that much remains to be done.

Wage Losses $1,869,000,000

Quoting from a Department of Labor report, the safety experts pointed out that the economic time loss charged to industrial accidents and deaths during 1947 was about 203,700,000 man-days, or the equivalent of full-time annual employment for 780,000 workers. Wage losses were estimated at $1,869,000,000.

Contributing to the large number of fatalities last year, were the Texas City explosion and the Centralia, Ill., mine disaster.

Industrial accidents were spread out among all types of workers, the Association reported. Wage earners in comparatively safe office jobs had their share of mishaps. Chief reason for the accidents is individual carelessness and lack of attention to normal safety habits, the safety men said.

Extra Shelves Add Welcome Storage Space to Kitchen

Properly planned storage space makes your kitchen more efficient. If you feel that you need more cupboards, perhaps the remedy is to make better use of the ones you have by remodeling them slightly.

The most efficient kitchen is one that meets your own particular requirements. With a little study and planning, it can be a reality and not just a dream. These suggestions may help you decide the best location for your supplies and equipment.

1. Store all small equipment and supplies where they are first used. For example, utensils such as saucepans are used first with water, hence should be stored at or near the sink. Covers and skillets are used at the range and are most conveniently stored there.

2. Give the items most frequently used the most accessible position in the cupboard. In each cupboard there are drawers and shelves which can be reached without stooping or stretching. These are best for storing staple supplies, mixing utensils, baking pans, everyday dishes and silver.

3. Supplies and equipment used in one process should be stored together in the cupboard. This saves time and motions—by opening one door or drawer, you have at hand all the supplies you need. If the dishes your family ordinarily uses are stored in one section of the dish cupboard, fewer motions will be required in taking them out and putting them away.

Storage space should fit the item to be stored. You can make shelf patterns by cutting a piece of paper the length and width of the shelf. Then on this piece of paper arrange the dishes, equipment and supplies to be stored, keeping in mind that only like articles are stacked together or in front of each other. When you have the arrangement you want, measure the height of the stack of dishes or the tallest utensil and allow about 2 inches for clearance. This determines the distance between the shelves.

For cupboards with wide-spaced shelves, installing "half" shelves will eliminate crowding and disorderliness. They may be permanent or removable. A shelf 3 inches wide in your mixing cupboard is ideal for spices. One 8 or 9 inches wide in the dish cupboard is just right for a stack of saucers or salad plates or for two rows of cups or glasses.

A rack on the door of your mixing cupboard is another good spot for spices and extracts, so that you can select the cinnamon without moving all the other boxes. A narrow strip across the front of the rack about an inch from the bottom makes it possible to clean the rack easily and doesn't hide the labels.

Vertical partitions provide convenient storage for platters, trays, covers and baking pans. They can be located in the upper or lower cupboard or in a deep drawer. The size of the tray or pan determines the height and width of the partition. In order to simplify cleaning, each vertical partition or the entire rack should be removable.

Edward P. Flood Taken by Death

Edward P. Flood, 55, superintendent of the Santa Clara County Quarry on Big Basin Road in Saratoga, died Sunday in a rest home.

A native of California, Flood had lived in San Jose area 40 years. He resided at 26 Sanford Ave., Campbell.

He leaves his widow, Cora Flood; three daughters, Mrs. Geneva Alford and Mrs. Dorothy Johnston, San Jose, and Mrs. Beatrice Adrian, San Francisco; and three brothers, Clinton Flood, Los Gatos; Leslie Flood, San Luis Obispo, and Stephen Flood, Yuma, Ariz. Five grandchildren also survive.

Funeral services were held Tuesday at 2 p.m. from Darling-Fischer Garden Chapel. Interment was in Oak Hill Memorial park.

ON ARMY DAY, APRIL 6, there's something you can do for WORLD PEACE

Army Day is the day every American can set aside to salute the men in uniform. And this year, particularly, it is a day for every young man in the nation to consider the contribution *he* can make to World Peace.

Right now you have the finest 100% volunteer Army of any nation in the history of the world. But it is still below the strength authorized by Congress. Able men are needed for the Infantry, Artillery and Armored Cavalry.

You can make a contribution to World Peace by joining the National Guard or the Organized Reserve Corps. These splendid civilian components have been credited by top military leaders for much of the success in quick mobilization and actual winning of the last war. Today they are important factors in backing up the strength of the Regular Army.

Both Veterans and non-Veterans who meet requirements are eligible to enlist in the Organized Reserve Corps. Veterans retain the grade and rating earned in the Army.

In many high schools and most colleges, you can join the R.O.T.C. and get your military training and credit toward a Reserve commission along with your education.

Any one of these steps that you can take on Army Day will help toward making America strong. And it has never been truer than right now that A STRONG AMERICA IS A PEACEFUL AMERICA.

Make a point, on April 6, of stopping in at your U. S. Army and U. S. Air Force Recruiting Station and getting the information about the part you can play toward World Peace.

ON ARMY DAY

★ *Display your American flag*
★ *Wear your Veteran's lapel button*
★ *Find out how you can make a contribution to World Peace in the Regular Army, the National Guard, the Organized Reserve Corps or R.O.T.C.*
★ *Ask for literature at your local recruiting station.*

Good news for poultrymen!

KRAYLETS 80% milk products in convenient dry kernel form!

• Here's the sanitary, *easy* way to give important milk products to your poultry! This remarkable feed booster — Kraylets — comes in convenient *dry kernel form*—and contains 80% *milk* products. Just sprinkle it on top of your poultry mash—mix it in the mash—or scatter as scratch. Kraylets is not a liquid, not a paste. Kraylets is the best way yet to boost feed values with important milk nutrients!

80% milk products in Kraylets!

The milk products in Kraylets are cheese whey solids and cheese solids (from rinds and trimmings)—sources of high quality proteins and lactose, so important to growth, health and thriftiness. The remaining 20% of the formula consists of soybean oil meal, alfalfa meal (dehydrated), and dried brewers yeast.

Helps get chicks off to fast start

Kraylets provides high quality milk proteins and lactose—food elements that are so helpful in promoting fast, thrifty gains, flock health and vigor, good bone and body structure. That's why Kraylets helps get chicks off to a fast start, and helps keep them lusty and healthy right up to marketing time!

Economical to use . . .

because Kraylets provides milk products in such highly concentrated dry kernel form. A little goes a long way. For example, add only one pound a day to your regular ration for every 150 birds!

Don't delay—order your supply of profit-boosting Kraylets today from your feed dealer listed below.

No Stone Unturned

Accidents can happen to anybody, warns the National Conservation Bureau, accident prevention division of the Association of Casualty and Surety Companies, in a plea for safer living. Just to show that even the great and near-great aren't immune to common mishaps, the Bureau said the following famous persons had been accidentally killed or injured in the past few months:

Killed—Katherine Dos Passos, wife of author John Dos Passos, and Leonard C. Miller, Oak Ridge atom scientist. Both in automobile accidents.

Injured—John Dos Passos, lost sight of one eye in crash which killed his wife; bandleader Ted Weems, auto accident; Henri Bonnet, French Ambassador to the United States, auto accident; songwriter Joe E. Howard struck by auto while crossing between intersections; Hollywood starlet Jean Heather, car overturned on curve; actress Kay Francis, overdose of sleeping pills, and playwright Eugene O'Neill, fractured arm in fall at home.

FARM NEWS
AGRICULTURAL EXTENSION SERVICE

According to Charles J. Cali, president of the Santa Clara Farm Bureau, the Executive Committee, at a meeting March 22, passed a motion recommending that the Board of Directors at their regular meeting April 5, 1948, request the Public Utilities Commission to rescind their present ruling on power for agricultural use in Santa Clara County.

Cali said the opinion of the committee was that as the present order stands, growers in this county will suffer a tremendous loss. Crops will require much more irrigation this year than in 1947. Water levels are lower, requiring greater horse power to pump the same volume of water as was pumped from wells last year. The dairymen and livestock men will not be able to maintain permanent pastures or produce alfalfa crops equal to those produced in 1947.

Frank Hopkins, chairman of the dairy department, and Jere W. Sheldon, chairman of the livestock department, reported to the Executive Committee that their groups need more power this year than was used last year. Hopkins stated that the milk supply is none too plentiful at present and if dairymen cannot maintain their permanent pastures and alfalfa prooduction at least equal to last year, milk production in this county will decrease considerably. Dairymen cannot maintain their herds on $43.00 hay and stay in business.

Sheldon said that if agriculture in 1948 is allowed to use only 85 per cent of the power that was consumed by it in 1947, labor, business and agriculture will be hit hard. Other groups must do everything they can to conserve electricity, and by doing so, farmers will be able to produce enough food to maintain a stable economy for all in Santa Clara County.

March winds are ill winds, if you duck your head against them while crossing the street, warns the National Conservation Bureau. Keep your head up and be alert to oncoming traffic in both directions. Cross streets only at designated crosswalks and with the signal. You'll live a lot longer.

Over 33,500 persons accidentally lost their lives at home during 1947, an increase of 1,000 over the year before. A majority of these tragedies were caused by falls, points out the National Conservation Bureau. The best way to keep your family safe is "good housekeeping," says the Bureau. Keep stairways clear of loose objects, keep toys picked up, fasten down loose rugs that may send you crashing to painful death or injury.

Auto Inspection Urged for Safety

Nation-wide efforts to reduce the shocking annual death toll caused by automobile accidents can never be fully successful unless all the weak links in the chain are closed, Thomas N. Boate, special services director of the National Conservation Bureau, said this week. One of the weak links, and one which states are most inclined to ignore, is comuulsory periodic motor vehicle inspection, he pointed out.

Studies made by the National Conservation Bureau, the accident prevention division of the Association of Casualty and Surety Companies, reveal that traffic accident rates are lower in the states and cities where periodic inspection keeps automobiles free of hazardous defects which may cause death and injury without warning. In one state, Mr. Boate pointed out, traffic accidents were reduced 13 per cent the first year that compulsory inspection was in effect. The national accident rate went up during the same year.

Seventeen state and five cities now have compulstory inspection laws.

Citing advantages of legislation requiring periodic check-ups on automobiles, he said the inspections:

Reduce accidents, improve general standard of vehicle condition, lessen depreciation and maintain higher auto values, afford opportunity to check motor serial numbers against driver licenses, thus reducing auto theft, improve quality of garage workmanship, and provide excellent opportunity for informing drivers of the condition of their cars and their responsibility for driving safely at all times.

March and April are still high on the list for months in which persons are killed or painfully injured by burns and scalds. Windy days and rain keep many persons indoors near the fire, thus increasing the need for more safety in the home.

Daughters of the Golden West pick vari-colored stocks in one of the 2500-acres of flower fields in the Santa Maria Valley in preparation for the annual Spring Flower Show April 10 and 11. Sponsored annually since 1900 by the Minerva Library club, except for war years, the flower show gains national attention. Junior Hostesses, who will wear 49'er costumes, left to right, are: Misses Joan Scheel, Anne Dorsey and Sally Scott. —Al Taylor photo

To List Tennis Tournaments

Tennis tournament lists will be made out Sunday, April 4, when Campbell Tennis Club meets in Campbell High School building.

Harold Drummond, president, has asked all interested players to enter their names with him at the meeting or beforehand.

Flying Cubs To Meet for Party

Flying Cubs of Pack 31, Pala School, will meet from 12 to 5 Sunday afternoon, April 11, for a wiener roast at Tom Shaves' home in Campbell.

Some 30 boys will attend the party. The Cubs actually fly with trained instructors.

Don't fall for the man with the sickle, girls, it's sure death. Over 26,900 persons are killed each year by accidental falls, according to a warning by the National Conservation Bureau. This nation-wide safety organization suggests a personal slogan for everyone: "Watch your step — and stay alive."

Protect Social Security Rights

To help them protect their full social security benefit rights, the Social Security Administration is issuing a special call to workers and former workers who have reached the age of 65, it was announced today by John J. Cassidy, manager of the San Jose Field Office.

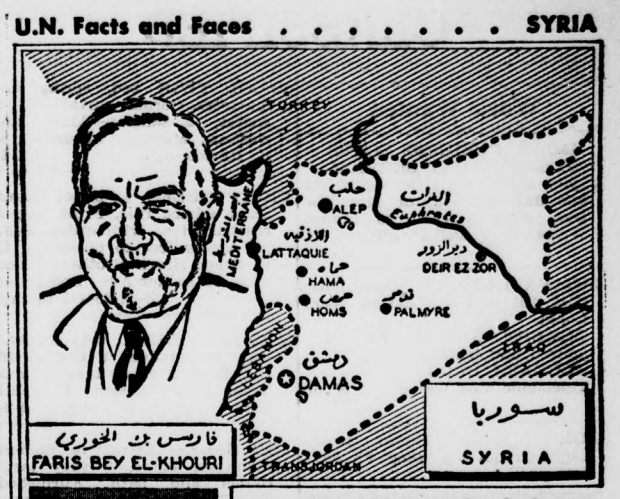
Any person covered by the Social Security Act may file his claim at age 65 even though he is still working, according to Cassidy. Of course, the eligible wage earner may not receive benefits while he is working in a job covered by the social security program. But by filing application he can prevent any possible loss in benefits in the future. If he keeps putting off making a claim, he may lose some monthly payments to which he would otherwise be entitled.

"So important is this matter that we not only invite, but urge all workers in private industry and business establishments — those who have done some work under social security — to come and see us," Cassidy said.

For the convenience of out of town workers, a representative of the Social Security Administration calls at Santa Cruz, Salinas, Watsonville, and Monterey each week and at Palo Alto once each two weeks. The representative assists workers in filing claims and supplying information. Information as to the exact time and place can be obtained from Cassidy's office in San Jose or from the local employment office. Workers at distant points may file claims by mail. Any interested worker 65 years of age or not may receive informational pamphlets by calling in person or writing to 28 North First Street, San Jose, California. It is also suggested that survivors of deceased workers get in touch with this office as soon as possible, to avoid benefit loss, Cassidy said. The records show that several persons have lost money by not making inquiry.

Working coonditions are getting better and safer, but accidental deaths and injuries on the job are still on the upswing. Last year 17,000 persons were accidentally killed while at work, an increase of 500 over 1946. The reason: Individual carelessness, and indifference to safety rules.

U.N. Facts and Faces . . . . . SYRIA



Syria, whose history reaches back more than 5000 years to the dawn of history, is a traditional meeting ground in the Middle East of hundreds of peoples and cultures. The Republic of Syria was separated from the Ottoman Empire in 1918 and has been self-governing since 1941, when a League of Nations mandate held by France was ended. Most of her 3,000,000 people work at farming, stock-raising and trading in her 73,000 square miles of territory. Syria, which is a member of the United Nations Security Council, is represented at U.N. Headquarters by Faris bey el-Khouri, President of Parliament. The Syrian flag has horizontal green, white and black stripes and three red stars.

Kites and Power Don't Mix

The spanking breezes of Spring, give wing to kites by the thousand, brought an annual warning from Pacific Gas and Electric Company today and a list of kite-flying "Don'ts" designed to safeguard life and property.

Kites and power lines don't mix, the Company warned, without injury, sometimes fatal, and serious property damage. During the present power emergency, the Company said, service interruptions caused by carelessly flown kites are particularly dangerous.

P. G. and E.'s code for safe kite flying follows:

1. DON'T fly a kite near electric or trolly wires.
2. DON'T climb a pole to untangle a kite.
3. DON'T let a kite go over radio aerials.
4. DON'T build or buy a kite with metal or wire in the frame or tail.
5. DON'T use tinsel string, wire, or any kind of twine that has a metallic substance. Use plain cotton or linen cord.
6. DON'T touch fallen electric wires. Report them to P. G. and E. or to your parents.
8. DON'T fly a kite when it is raining. A wet string is a conductor of electricity.

Common Colds Cost $2,000,000,000

The cold and sniffle season isn'e over yet, folks, even though the worst of winter is past. There are still spring solds to contend with and they will account for many days' time away from the job and a good part of the billioons of dollars in annual economic loss.

This warning is given by the National Conservation Bureau, division of the Association of Casualty and Surety Companies, which is just as interested in public health as in safety. For an example of what the common cold means to the worker, the Association points to a recent medical report which estimates that cold sufferers in this country will lose 100 million working days and that the economic loss will be not less than $2,000,000,000 this year.

No Sure-Cure

The New York Department of Health figures colds will cost persons in that city alone over $30,000,000 in wages and $10,000,000 for medicines.

Sadly enough, says the Health Department, these nostrums don't cure. No sure-fire cure for the common cold has yet been found. If you want to avoid a cold, take the following advice:

Stay away from those who have colds; dress warmly and avoid becoming chilled or wet; eat wholesome, nutritious food; get enough fresh air and exercise and plenty of rest.

THINGS YOU SHOULD KNOW ABOUT PAINT

You don't have to be afraid of Colors

The best rule about color is, "Use it." Choose the colors you like when painting. For we can show you how to make those colors fit your style of house perfectly, and express your personality, too.
Be sure to visit us and see the colors in the "Dutch Boy" line. They can be combined to achieve any effect you want. If it's suggestions you need, we'll show you smart color schemes created by expert interior decorators using "Dutch Boy" colors.
Why not drop in? As your "Dutch Boy" dealer we can satisfy all your painting needs... in paints, enamels, varnishes, supplies or ideas.

Five Trustees

(Continued from 1)

sulting from the indifference of the electors."

School board members here who have filed as candidates for re-election are Joseph V. Gomes and G. K. Schrader, trustees of Campbell Union High School; Kenneth H. Jessen, of Union School District, and Walter W. Williams of Campbell Elementary District.

Frank L. Steindorf, trustee of Cambrian School, Ross C. Trowbridge of Campbell Elementary District and Roy A. Smith of Moreland School board, have not refiled.

Freeholders

(Continued from 1)

the candidates chosen from Campbell and its environs.

Assemblyman Robert C. Kirkwood, chairman of the CCM, said the slate will be presented in person to the Board of Supervisors Monday.

The Board has agreed to start machinery at the same meeting to place the Freeholder proposition and slate on the June 3 primary ballot.

Between April 5 and April 21 the committee must circulate petitions for the 15 candidates and receive 3541 valid signatures and a maximum of 4248 signatures.

After election, the Freeholders will be charged with writing a County Charter. It will then be presenoted for ratification by the voters. Kirkwood said duties of the Freeholders would end with the writing of the Charter as they are in effect a "Constitutional Convention convened for the sole purpose of writing a constitution for Santa Clara County."

It was again pointed out that Santa Clara County is the largest political subdivision in the State now operating under general State law instead of its own charter. Kirkwood praised the Board of Supervisors for co-operation given the Charter movement.

Gallagher, an attorney who resides on Moorpark avenue near the Campbell-Burbank districts, has lived in Santa Clara County 29 years. He was graduated by Santa Clara University Law School.

A property owner in Campbell and Burbank, he is married and has four daughters and two sons. He is a member of Elks and Rotary and served as a member of the Central Committee on the O'Connor Hospital drive and is a Community Chest worker.

Mr. Ryser, orchardist and warehouseman of Rt. 1, Box 726 Almaden road, San Jose, has been a county resident since 1924. He is in the dehydrating and warehouse business at Coyote. Among his civic activities, he has served on the Encinal School Board of the past 10 years; he is a Mason, district deputy of the State Grange and served in the Merchant Marine during World War I. He is married and has two sons and one daughter.

Oliver J. Todd

(Continued from 1)

two factions in the Chinese civil war and both groups supplied workers and money for the project. Time magazine says of Todd's work, "He was trying to change the geography of a valley where 50,000,000 people lived; he was trying to create a farm region as big as Iowa." The total project was brought to a highly successful conclusion in 1947.

For his work on the Yellow River, Mr. Todd has been decorated by the Chinese government, given a special citation by the United Nations and high coommendations by governmental agencies.

Consults with Party Officials

After returning from China and while vacationing at his home in Palo Alto, Todd was first considered by the Democratic party as a candidate. Shortly after this, Todd went to Washington, D. C., where he consulted with high Democratic party officials, members of the State Department, Bureau of Reclamation chiefs and others. He talked to Secretary of Agriculture Anderson on farming and water problems of the Eighth District. He had an audience with Secretary of State Marshall, during which they discussed the Yellow River project, a matter in which Marshall had been intensely interested.

Upon his return to the District, Todd was offered the candidacy through the endorsement of the Eighth District Committee. Todd accepted the candidacy saying "After a careful study of conditions throughout the district and after talking to officials in Washington I am convinced that our district faces a crisis of major proportions. This crisis has been brought about by our severe and growing shortage of pawer and water. So serious is this condition, so quick and deadly will be its consequences that I shall strive earnestly to work out a solution that is above partisan politics."

Mr. Todd believes that quick, energetic action must be taken to bring in new supplies of power and water and to allow for future expansion of the district.

Mrs. Lois Pendleton Todd, Mr. Todd's wife, has been associated for 10 years with the Student Health Service at Stanford. At present she is head of the women's division there. The Todds have four children, two daughters and two sons. Their oldest daughter, Doris, is attending Smith College on a scholarship and is studying in the pre-medical division. Elinor, the other daughter, is in her first year at Pomona College. Both of the daughters were honor students at Palo Alto High School. James, their eldest son is in his third year of high school and is much interested in Scouting, being an Eagle. Hewlett, their youngest son is in junior high school.

New Bank

(Continued from 1)

capacity until 1944 when he was promoted to assistant manager of the bank's office at Tracy, California, which post he is now relinquishing. Payne was active in the civic affairs of Tracy. He was president of the Tracy Lions club and district chairman, Boy Scouts of America. He is also a past president of the Santa Clara County Chapter of the American Institute of Banking.

Arthur Mayo has also been with American Trust Company for many years, having first become associated with the bank in 1928 at San Jose. He was graduated from the American Institute of Banking and served on the board of governors, Santa Clara County Chapter, of this organization.

It is anticipated that the Campbell office of American Trust Company, which is now being constructed at 280 East Campbell avenue, will open for business on or about April 12.

Kite Fly Set for Sunday Afternoon

Kite flyers and their creations will gather at Cambrian School grounds from 2-4 p.m. Sunday for a kite-flying contest under the auspices of Campbell Coordinating Council.

They'll be competing for prizes to be awarded the largest, the smallest, the most novel and artistic and the highest flying kites. Awards will be made in two groups—one for youngsters under 16 and for older high flyers.

All kites must be homemade. Entries will be judged by Ben Ziegler, Dr. W. R. Morgan and Frank Coombs.

Maderis Five Defeats Tony's In Play-Offs

In elimination play-offs of the Campbell Adult Basketball League Tuesday night, Tony's Busy Bees fell before a smooth Maderis outfit 46-32 and Strong's Painters were defeated by a fast-charging Burbank five, 30-21.

Kay Borg highlighted the Maderis Food Center win with a sparkling 18 points. Bill Wilson starred for the Bees by garnering 15 points.

In spite of Howe's stellar 11 points for Strong's Painters, the local quintet lost to Burbank.

Campbell Hardware defeated Maderis Food Center for the first half by forfeit.
